KING HEARTBROKEN

GEORGE, OF SAXONY, IS
SLOWLY PINING TO DEATH.

Former Successful and Brilliant Commander in German Army, Now a Helpless and Heartbroken Old Man—Elopement of His Daughter, the Crown Princess Louise, With a Tutor, Cause of His Grief.

Dresden, Saxony, Oct. 17.—King George of Saxony, whose death is a matter of only a few hours, is undoubtedly dying of a broken heart.

Ever since the elopement on December 20, 1902, of the Crown Princess Louise with M. Givan, a French tutor of her children, the fine old monarch has been seemingly in a daze. Several times during the past two years his life has been despaired of and now the end is near.

King George was one of the most successful and brilliant commanders of the war of 1870, holding the rank of field marshal of the German army, and he has been particularly close in politics and military sympathy with his nephew, the Kaiser.

The Crown Prince Frederick, eldest son of King George, is 40 years old and is said to be rather dull and heavy-witted and not particularly popular.

He married the runaway crown princess in 1891, she being the Archduchess Louise of Austria, and daughter of the archduke of Tuscany.

The pair had four children, three sons and a daughter, the latter being born after the elopement. This child was taken from the mother and is now in possession of the Saxon court. Not long after its birth, the law courts granted the Crown Prince Frederick a divorce, so that when King George dies, Saxony will be a kingdom without a queen.

King George was born in 1832. He married Princess Marie Anne, of Portugal in 1859. She died in 1884.

LIBRARIANS.

American Association Draws a Large Attendance.

St. Louis, Mo., Oct. 17.—Probably the most notable of the several conventions to be held in the World's fair city this week is the annual meeting of the American Library Association, which began today with a large and representative attendance. Herbert Putnam, librarian of the Congressional Library at Washington, will preside over the sessions, which will continue until the end of the week.

Among the practical topics scheduled for discussion are: "State Aid to Libraries," "The Library and the School," "Women in Library Work," "Methods in Cataloging," "Classification and Annotation," and "The Best Reading for the Largest Number at the Least Cost." During the week, in connection with the meeting of the national association, the state library associations of Kansas, Missouri, New York and Iowa will hold their annual conventions.

Woman Suffragists in Session.

Auburn, N. Y., Oct. 17.—Many visitors are here for the 36th annual convention of the New York State Woman's Suffrage Association, which will be in session during the next three days. A public reception in honor of the delegates will mark the formal opening of the convention this evening. The participation of Susan B. Anthony, the Rev. Anna H. Shaw and other leaders of national prominence promises to make the gathering the most notable ever held by the state association.

Noted Democrats to Speak.

New York, Oct. 17.—What promises to be one of the great political rallies of the campaign in the mass meeting to be held in Madison Square Garden tonight under the joint auspices of the Manhattan, democratic, the Reform and Parker Constitutional clubs. Among the noted speakers announced for the meeting are: Carl Schurz, Patrick A. Collins, of Boston, Senator W. J. Stone, of Missouri, W. Bourke Cochran and D. Cary Herrick, democratic nominee for governor of New York.

Mr. Hill's Indiana Dates.

Indianapolis, Ind., Oct. 17.—The battalion of noted democrats of other states who have been pressed into campaign services in Indiana was reinforced today by the arrival of David B. Hill of New York. Mr. Hill has arranged to devote three days to the Indiana campaign. He will address a big meeting in Tomlinson hall in this city tonight. His other dates are at Michigan City and South Bend.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Simmons, D. D., of Peoria. The sessions of the convention will continue until Friday.

We Shall Buy a Million

Bottles of Ligozone and Give Them to the Sick.

We have purchased for \$100,000 the American rights to Ligozone. We thus control the only way to kill germs in the body and end a germ disease. We want the sick to know this product, and at once. So we make this remarkable offer. We will buy a million 50c bottles and give them to a million sick ones. Will you—if you need it—let us buy one for you?

Costs \$500,000.

We publish this offer in every great newspaper in America. The cost of the offer, we expect, will reach \$500,000. We pay that price because it seems the only way to quickly let the sick know what Ligozone does. The greatest value of Ligozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Ligozone does in germ troubles what all the drugs, all the skill in the world, cannot do without it. It cures diseases which medicine never cures.

Acts Like Oxygen.

Ligozone is the result of a process which men have spent over 20 years in perfecting. Its virtues are derived

solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Ligozone is a vitalizing tonic with which no other known product can compare. But germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter. Yet this wonderful product which no germ can resist, is, to the human body, the most essential element of life.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.
